EXPERIENCE

WIRTUALNA POLSKA
Front-end Developer

05.2023 - present

My role at the company involves developing and bug fixing. I actively take part in numerous projects, including creating user interfaces, implementing new functionalities, and resolving issues. I collaborate with the development team and system architects, participating in defining project architecture and establishing project requirements.
Technologies: React, Next.js, MobX, TailwindCSS, Git, GraphQL, REST API, SCSS, MobX, MobX-State-Tree, GraphQL, JOTAI, HTML, CSS, JEST, React Testing Library.

FUJITSU
Front-end Developer

09.2022 - 05.2023

I actively participated in the development of an application for displaying and manipulating complex data, as well as resolving issues on both the frontend and backend. I also collaborated in defining the application's requirements.
Technologies: React, Javascript, Typescript, Git, SQL, REST API, CSS, HTML.

ETECHNOLOGIE
Front-end Developer

06.2021 - 09.2022

I took a central role in the creation and development of e-learning and e-commerce platforms, which contributed to their design, implementation, and continuous improvement. I also took part in defining project requirements.
Technologies: Javascript, Git, React, Wordpress, PHP, HTML, CSS, REST API.

OIRP SZCZECIN
IT Support

10.2020 - 06.2022

- Technical assistance during online lessons
- Technical assistance during stationary events
- Student file management
